Week 1 - 9/5/2024

Class Overview and Supply List

The first week will cover what is the fiber arts and what is crochet.

Each class will have a video they can watch on my YouTube channel that cover the same material we went over that day in co-op. This is a free resource that can be shared with friends and family or even other homeschoolers who may want to learn how to crochet.

This is also intended to help the child or parent learn the stitches each week with a close-up visual to help them make their washcloth or scarf during the week before the next co-op class.

In this class we will be making washcloths as we learn the single crochet, half double crochet, double crochet and how to weave in ends and fully finish a project.

In week 5 we will begin making a scarf that the student can wear or gift for this Fall season.

If there is time, and depending on how the class goes we can add another project. That will be determined by how the class does or by a per student basis.

I will supply free crochet patterns and videos for each project.

Class Supply List:

- Crochet hook size H /5.0mm
- Tapestry needle for weaving in ends
- Cotton worsted weight yarn for washcloth making when learning stitches
- 2 skeins of worsted weight yarn for scarf project
- Bag to hold supplies in to bring to and from class each week
